

# Starter P<sup>®</sup>

# Maximizing Phosphorus Use Efficiency

ANALYSIS (9-32-2 WITH STARTER TECHNOLOGY™)

## WHAT IS IT?

- Starter fertilizer for in-furrow.
- High Phosphorus content.
- Formulated with 70% Ortho- (readily available form) and 30% Poly-phosphate (converts slowly as soil warms up).
- Low salt index.
- No chloride.
- Seed safe.
- The product is available in 10 L jugs, 450 L and 1000 L IBC's.

## WHEN & WHY USE IT?

- When seeding into cold and wet conditions.
- In soils with high levels of  $\text{Ca}^{2+}$ ,  $\text{Fe}^{3+}$  or  $\text{Al}^{3+}$ .
- Use to improve early-season availability and uptake of Phosphorus.
- Use to reduce phosphorus tie-up by  $\text{Ca}^{2+}$ ,  $\text{Fe}^{3+}$  or  $\text{Al}^{3+}$ .
- Use to supplement a well-balanced soil fertility program.

## WHAT TO EXPECT?

- Improved root and shoot development and crop establishment.
- Strong advantage of the crop over the weeds.
- Enhanced tolerance to early season environmental stress.
- Less signs of phosphorus deficiency on the seedlings (purpling).

## Application Guidelines

- 3-5 US gal/ac in-furrow.
- Can be combined with other fertilizer mixes (i.e., UAN, ATS, KTS, KOH, ...).
- Starter P<sup>®</sup> can be used with OMEX<sup>®</sup> EDTA-chelated micronutrients as required.
- Always recommended to use with a complete spring-applied fertilizer program.
